ESP Web provides specialized options for Canadian users! Users who are located in Canada will automatically be able to see search results and ads only from suppliers who do business in Canada. If you would like to view products from suppliers who ship within the United States, you are able to use the Market Segments option in the ESP Web Advanced Search.

Also, pricing in ESP is shown in Canadian dollars, which will carry through the ordering process. Additionally, if you need to order a product from a supplier whose pricing is in US dollars, ESP is equipped currency conversion capabilities.
