

ESP Websites - Global Features

Tamika C - 2020-12-22 - Global Features

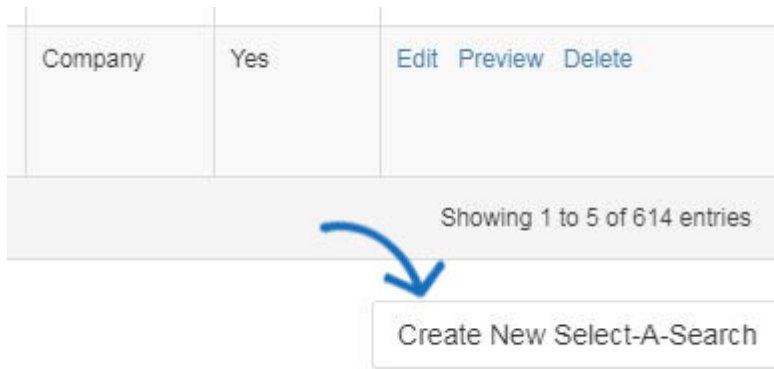

The Global Features area enables you to manage options and functions that can be any site in the ESP Admin.

From the Global Features dropdown, you can access these options:

My Saved Searches

Saved Searches, also referred to as Select-A-Searches, are links to already established searches. The links act as shortcuts to predetermined product searches, like "caps & hats."

To create a new Select-A-Search, click on the "Create New Select-A-Search" button, where you can use the ESP Web Quick Search to create your searches.

Type your search criteria using keywords into the search field and click Go. After you've completed your search, you will need to save it

After you have narrowed your search, you will need to save it.

Quick Search

After you have created your Select-A-Search, you can add it as a [link in navigation](#).

Coupon Manager

In the Coupon Manager section, you can edit, copy, or delete already existing coupon codes, or create new ones. Within the Coupon Manager, all existing coupons will be listed. Use the search bar to help you locate an already created coupon or click on any heading to sort in an ascending or descending alphanumeric order.

Note: Discount Value and Order Minimum are not clickable columns for sorting.

To delete, copy, or edit an existing coupon, select the option using the dropdown in Actions column.

- Edit: Will open the coupon properties and you will be able to update the information.
- Copy: Will create a new coupon using the information of the original one.
- Delete: Will remove the coupon.

Coupon Manager + Create a Coupon

Create coupons to use for promotions or special offers on your websites.
To enable coupons for a website, go to eCommerce / Check-Out and Order Management.

Creating a New Coupon

To create a new coupon code for your site, we can click on the Create New Coupon button.

Coupon Manager + Create a Coupon

Create coupons to use for promotions or special offers on your websites.
To enable coupons for a website, go to eCommerce / Check-Out and Order Management.

Code	Name	Start Date	Expiration Date	Discount Value	Order Minimum	Level	Actions
------	------	------------	-----------------	----------------	---------------	-------	---------

In the Create A Coupon window, enter the desired information into the required fields. The required fields are:

- **Coupon Code**
This is the code shoppers will enter during the checkout process on your site.
- **Coupon Name**
The Coupon Name will be searchable in the Coupon Manager.
- **Description**
This information will not be shown on your ESP Website or Company Store, but is for your reference and not a required field.
- **Start and End Dates**
These dates will help determine when the coupon will be active on your ESP Website or Company Store.
- **Discount Value and Discount Type**

Type the discount value and then use the Discount Type dropdown to select Amount Discount or Percent Discount.

- **Order Minimum**

Enter the minimum amount necessary for this coupon to be applicable.

- **Level**

The level will determine the visibility of this coupon information to users within your company.

When you are finished entering the specifications for the new coupon, click on the Save button.

Create a Coupon ✕

Code*	Name*

[Add New Content](#)

After you've clicked the "Add New Content" button or button, you can begin entering information. The editor will open in a "WYSIWYG" format, meaning What You See Is What You Get. This means that you can add images and content directly in this window and edit how it looks using the available options. If you are familiar with HTML code, you can use the code editor option to update content as well.

A toolbar for a WYSIWYG editor. The top row contains icons for undo, redo, insert image, insert document, link, unlink, decrease indent, increase indent, star, and a paintbrush. The bottom row contains icons for bold (B), underline (U), italic (I), strikethrough, text color (A), bulleted list, numbered list, indent, link, table, and source code (</>). The font is set to Helvetica and the size to 14.

Enter WYSIWYG content here

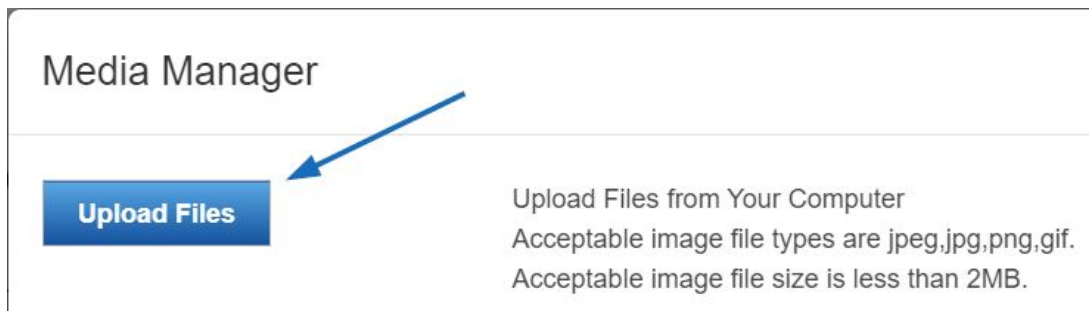

Adding Images

To upload an image to your content, click the camera icon from the toolbar.

A close-up view of the toolbar from the previous image. The icon representing an image (a camera) is circled in blue, indicating it is the focus of the instruction.

The Media Manager will open. All previously uploaded images from all users in your company will be available in the Media Manager. To upload a new image, click on the Upload Files button, navigate to your image, select it and then click on Open.

Your image will be added to the Media Manager. Hover on the image and click Select File to add it to your content.

You can repeat this process to upload multiple images. When you are finished making your changes, click on the Save button at the bottom right side of the editor.

Properties

The properties box on the right is where you can enter the title for your content. You have the option to attach your content to specific Categories and Markets, but this is optional. You can select a level and then enter a release date. The release date will indicate when this content will become available. If at a later date, you no longer want the content to display, you will need to either edit your release date or remove the content from your web page.

After you've finished making changes, click on the Save button under the content window.

Once you have finished creating and saving, you can apply this new content to your ESP Website or Company Store.

To apply your content to your site, expand the Pages & Menus by clicking on the plus button and then click on the [Advanced Page Manager](#) link.

Note: To close the menu, click on the minus button.

Exclusion Lists

To create a new exclusion list, click on the "Create a New Exclusion List" button. Then, fill in the required fields in the Create a New Exclusion List box.

A screenshot of a 'Create a New Exclusion List' form. The form has a title bar with a close button (X). Below the title, there is a paragraph: 'Give your Exclusion Lists a name and description and then hit "Save" to start adding products.' The form contains three main fields: 'Name*' with a text input containing 'Example Exclusion List' and a blue arrow pointing to it; 'Description' with a large empty text area; and 'Level' with a dropdown menu showing 'Company'. Below the 'Level' field, there is a checkbox labeled 'Active' which is checked and circled in blue. At the bottom right, there are two buttons: 'Cancel' and 'Save', with a blue arrow pointing to the 'Save' button.

After clicking on Save, you will automatically be taken into the ESP Web Quick Search,

where you are able to search for products to add to your exclusion list.

After you have completed your search, mark the items you would like to exclude from your site. You can mark up to 100 items at a time. After you have marked the items, click on the Marked Items dropdown. You can select to add the marked products to an existing list or to the current list

Clipboard (0)	Marked Items	Summary View

Click on the plus button to expand Website Settings and then click on Exclusions.

Note: To close the menu, click on the minus button.

In this area, you can:

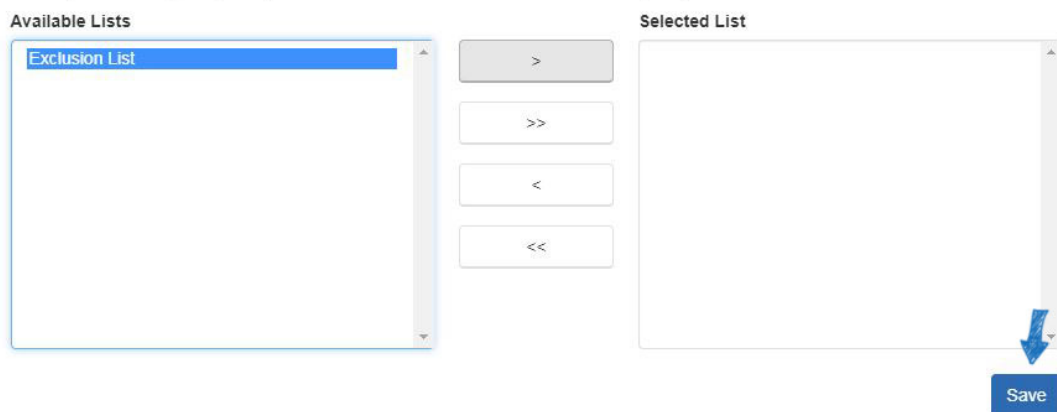

- Click an individual list or hold CTRL to select multiple lists, and then use the right pointing arrows to add these to the Selected List box.
- Use the double right pointing arrows to add all available lists to the Selected List box.
- Click an individual list or hold CTRL to select multiple lists in the Selected Lists, and then use the left pointing arrows to remove them from the Selected List box.
- Use the double left pointing arrows to remove all selected lists.

Exclusions

Product Suppression

To suppress products from this Website, move the set of products to be suppressed from the list on the left to the list on the right by highlighting and using the arrow buttons. Then click Save.

Because product IDs may change at any time these lists needs to be reviewed and maintained regularly.

Click on the Save button when you are finished. Click on the Make Changes Live to publish these changes.

Category Control

ESP Websites enables you to limit the categories on your site. Just like with product lists, click on a category from the options on the and then click on the single arrow to move it

onto the excluded list.

Note: A product that is listed multiple categories and one of the categories tied to the product is set as excluded from our site, that product will not appear in related categories.

Category Control

This section allows you to control what categories appear on your Website. All categories are shown by default. To exclude a category, select it from the "Included" list on the left. Click the first arrow button in the middle and the category will move to the "Excluded" list on the right. Click the blue "Save" button.

Included

Search

- 3-D PRODUCTS
- ADDRESS BOOKS
- ADULT NOVELTIES**
- ALARMS & PROTECTIVE DEVICES

ABC Promotional

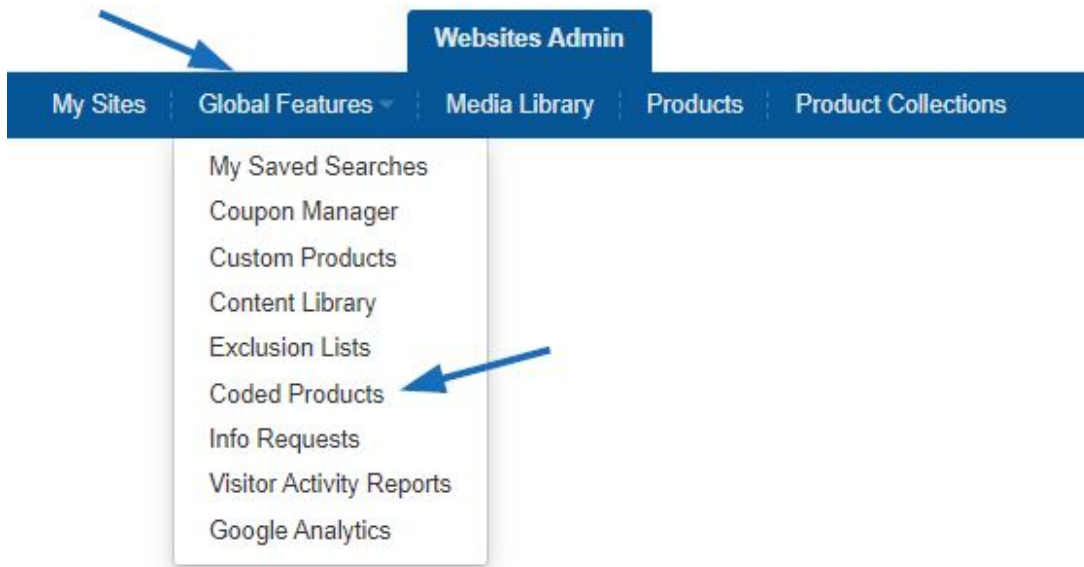

<https://abcpromotions.espwebsite.com> (OBHM)

Coded Products

Coded product numbers are distinct call numbers for products which are individualized for your company. These numbers are different from the supplier's product number. A benefit to using coded product numbers is that the numbers only correspond to products on your ESP Website. This means that every user under your ASI number will have the same coded product number for an item.

The Coded Products option in Global Features provides a search for coded product numbers. If you have not enabled coded product numbers for your ESP Website or Company Store(s), you will need to do so in the Website Settings - Display Options area.

To search for Coded Products or to retrieve the real product number with supplier information, click on Global Features and select Coded Products from the dropdown.

Type in or paste the coded product number and then click on **Go**.

Search Coded Products i

Go

The product will be displayed in the Detail view with all information, including the real product number and supplier information.

Information Requests

Information requests enable visitors to your site to send a request for more information prior to purchasing. In the Information Request area, you can view the visitors' company name, email, phone number, date they need the product, status of the request, name of your site, and the Action Items. In the Action Items, you can click "Edit" to view the Info Request Details (this will open below the Manage Info Requests section).

Company Name	Email	Phone	Date Needed	Status	Site Name	Action Items
ASI	customer@company.com	800-546-1350	07/01/2019	In Progress	ABC Promotional Products, Inc.	Edit

Showing 1 to 2 of 2 entries

In the Info Request Details area, you will be able to view all of the information that was entered in the information request. You can click on the "Product Info ID" link to view the Product Detail page. You can also change the status of the info request by clicking on the Status dropdown. The status of an info request can be: New, In Progress, or Completed. After you have made your selection, click on Save to save your changes.

Info Request Details
