

ESP Quick Tip #19: Search by Quantity

2021-09-17 - Jennifer M - ESP Quick Tips

When searching for products in ESP, the quantity can be used as a search criterion independently from the price and keywords.

After logging into ESP Web, enter a number in the quantity field. Then, click on the Search button.

The screenshot shows the top navigation bar of the ESP Web application. The 'ESP Web' tab is active. Below the navigation bar, there is a search bar with the placeholder text 'Search for Products...'. To the right of the search bar, there are dropdown menus for 'Products' and 'Price'. The 'Quantity' field is highlighted with a blue circle and contains the value '1,000'. To the right of the quantity field is an orange 'Search' button, which is pointed to by a blue arrow. Further right is a link for 'Advanced Search'.

The search results will list all products which fit the quantity requests from all product categories.

The screenshot shows the search results page. At the top, it displays '1,054,034 results from 2,644 Suppliers'. Below this, there is a search bar with the placeholder text 'Search within' and a 'Go' button. Underneath the search bar, it says 'You've selected' followed by 'Clear All | Save'. Below this, there is a 'Quantity Filter' section. It shows a dark grey button with the value '1000' and a 'Remove' button with a close icon. At the bottom, there is a 'Quantity' label, a text input field containing '1,000', and an 'Apply' button.
