

ESP Quick Tip #53: Print a List of Suppliers

2023-01-20 - Jennifer M - ESP Quick Tips

To print a list of suppliers, log into ESP Web and take the following steps:

1. Use the Quick Search toggle to select "Suppliers" and then click on the Advanced Search link.

2. Use the fields in the Advanced Search to set your criteria. The example below demonstrates how to locate all suppliers within a specific zip code. When you are ready, click on the Search button.

The screenshot shows the 'Advanced Search: Suppliers' form. The form is divided into several sections. The 'Keyword/Supplier/ASI Number/Linename' section has a text input field. The 'Supplier Rating' section has a star rating system. The 'Preferred Supplier' section has checkboxes for All, Silver, Platinum, Bronze, Gold, and Standard. The 'Market' section has radio buttons for All, USA (selected), and Canada. The 'City' section has a text input field. The 'State/Province' section has a dropdown menu. The 'Zip' section has a text input field with the value '19053' highlighted by a blue circle. The 'Phone/Fax Number' section has a text input field. The 'Email' section has a text input field. The 'FOB/Shipping Point(s)' section has a dropdown menu for 'Distance in Miles' and a text input field for 'Zip/Postal Code'. At the bottom of the form, there are 'Clear Search', 'Cancel', and 'Search' buttons. A blue arrow points from the 'Search' button to the 'ASI Chat' button.

3. On the results page, you can use the options on the left to narrow the results further if needed. There are two views available: Summary View and List View. You can also use the Sort By dropdown to organize the results. When you are ready to print, right click the mouse and select "Print" from the options available.
