### **Is there a way to change my password and user information for ESP Online?**

Yes, after logging into ESP Online, click on Edit and select Preferences. In the Preferences area, click into the User Info tab and then click on the Edit User Info button. The User Management System page will open with all of your information. Update your information and click on the Save button. If you need to change your password, click on the Change Password link in the upper right corner of the page. Enter your old password and then type your new password twice. Click on Save when you are finished. Close the page to return to ESP Online.

### **Is there a way to arrange the products in a certain order, i.e. price?**

ESP Online enables you to sort products by the Supplier ASI number, list price (low to high or high to low), net cost (low to high or high to low), profitability, category, supplier rating, special or product number. To sort product results, use the Sort By dropdown in the Summary or Tile view. There is also a sort by dropdown on the Advanced Search page.

### **How do I hide net cost and supplier information in ESP Online?**

Net cost and supplier information can be disabled in ESP Online by clicking on Edit and selecting Preferences. Click on the View tab. Check No in the Show Supplier Information area and use the checkbox to also hide the ASI # and Linename. Then, check No in the Show Net Cost information area. You can also hide the Price Codes by checking the box next to the No option. Click on OK when you are finished.

There are also keyboard shortcuts available to perform these actions:

- ALT + 5: Will hide Supplier information
- ALT + 4: Will hide net cost information
- ALT + 6: Will display coded product numbers in place of supplier provided product numbers.
