

Viewing Search Results

Tamika C - 2019-01-29 - in ESP Web

After completing a search in ESP, product results are displayed in the List view, but you are also able to switch to the Grid view, Image view, or choose to customize the search results. You are also able to sort and narrow your results in these views. In addition, you can also use the Quick views for a snapshot of product information as well as see all available product specs along with supplier information in the Detail view.

Sorting & Narrowing Product Results

Sort Search Results

Use the Sort By dropdown in the List, Grid, or Image view to choose how your product results are displayed.

In addition to Default, the available options in the Sort By dropdown are:

Cost: Low to High	Supplier Name	Product Name	Price: Low to High
Cost: High to Low	Supplier Rating	Product Number	Price: High to Low
Preferred Rank	Canadian Pricing	Confirmed Product	Profit
ASI Number	Canadian Suppliers	New Product	Recently Updated

Narrowing Search Results

After you have done a search, you can narrow your results down even further. From the results page, there is a section on the left to narrow your search results using "Guided Navigation".

- Clicking a narrow results topic will open the subset of the field below it. (As you can see with color, the subsets are not specific, and are grouped by shade).
- To see more than the top five in the list, you can click on the "+ See More" link in the

bottom right.

- To narrow the results further, click on the shades, in this example, blue shades.
- Clicking on "blue shades" will open the different subsets of blue within the search.

Click on a type of blue to narrow your products down to that specific shade. Rather than trying to match what the supplier listed (navy, navy blue, dark navy blue); you have access to all the products in that color field through a few clicks!

Note: When selecting any "narrowing result" criteria, the actual numbers of items that will display are shown in parenthesis.

The image shows three sequential screenshots of a search interface for 'mugs'. The first screenshot shows 21,877 results from 649 suppliers. The second screenshot shows 5,701 results from 382 suppliers, with 'Blue Shades' selected under the 'Color' filter. The third screenshot shows 511 results from 120 suppliers, with 'Blue Shades' and 'Dark Blue' selected. Blue arrows in the second and third screenshots point to the 'Blue Shades' and 'Dark Blue' options respectively.

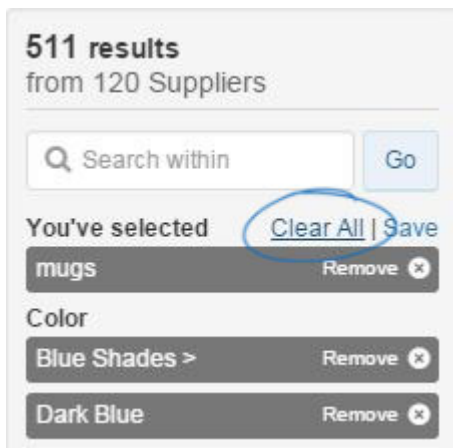

Color	Count
Blue Shades	5,701
Red Shades	4,581
White Shades	4,223
Black Shades	4,105
Green Shades	4,058

Color	Count
Medium Blue	4,960
Light Blue	736
Dark Blue	511
Bright Blue	126
Metallic Blue	74

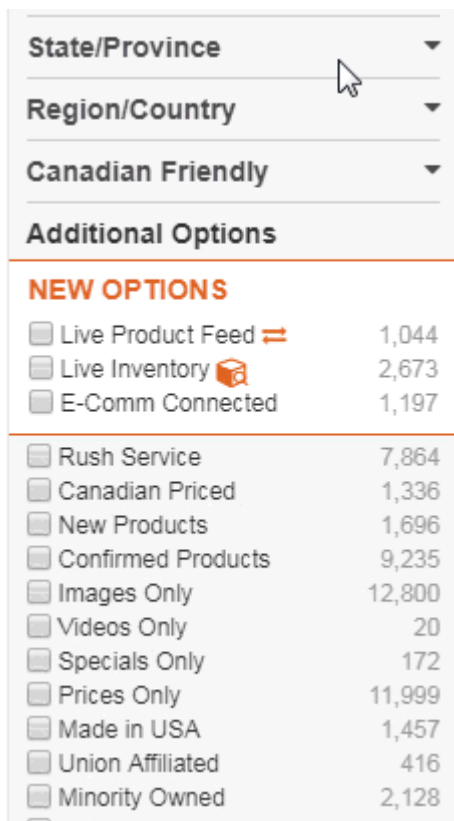

If you find that you have narrowed the criteria too deeply, you are able to remove some of your search by unchecking it in the "Your Search Terms" area.

This screenshot shows the search interface with 511 results from 120 suppliers. The 'Color' filter section shows 'Blue Shades >' and 'Dark Blue' selected. The 'Remove' button for 'Blue Shades' is circled in blue.

You can also click on the "Clear All" link to remove all of the search terms.

You are able to select multiple criteria in the supplier, theme, linename and tradename, as well as search within the section. Expand the section using the "+See More" link. In the sections where a scroll bar is necessary, there will also be a partial match search box available. Select the criterion you would like to use.

Some fields include checkboxes which enable you to select multiple options. Mark the boxes for the criteria you would like to use and then click on the Apply button. The selected options will be added to your searched criteria.

Using the List View

In the List View, on each product listed, you will see a thumbnail image, supplier information, product name and number and the list and net prices for the minimum quantity or the quantity you searched.

There are several additional options that may be included on a listing:

- Checkmark: Product information has been confirmed as accurate by the supplier.
- Most Popular: The most clicked on products for specific suppliers.
- Design Icon: Indicates that this product is [virtual sample enabled](#), meaning that you can apply your logo or create a blank product.
- New: Items that have been added to ESP within the past six months.
- Arrows: Located below the item number, these arrows indicate Live Product Feed. Live Product Feed means that the product information comes directly from the supplier via real-time data feed.
- Video: If a product video has been provided by the supplier, a green video box will be displayed on the thumbnail image.

Clicking on the Product Name will display the product in the [Detail](#) view.

If you hover on a product, the Order and Save options will display.

- **Order** will enable you to configure the product and begin the [order process](#).
- **Save** will add the product to your [Clipboard](#).

View: [List](#) [Grid](#) [Image](#) [Customize Results](#) Sort By: [Default](#)

<input type="checkbox"/>  	<p>Soup Mug ABC123 =</p> <p>E-Comm Connected ABC Supplier Company asi/12345 Not Rated</p>	<p>PRICE: 144 @ \$3.94 (R) COST: 144 @ \$2.364</p>
<input type="checkbox"/>  	<p>Travel Mug DEF456 =</p> <p>E-Comm Connected ASI Supplier Company asi/12345 Not Rated</p>	<p>PRICE: 48 @ \$6.98 (R) COST: 48 @ \$4.188</p>

Using the Grid View

The Grid view displays each product as a tile with a thumbnail image, product name, supplier name and rating. Hovering on an image will display the net cost as well as the [Compare](#), [Order](#) and [Save](#) buttons.

<input type="checkbox"/> 	<input type="checkbox"/> 
<p>Plastic Travel Mug E...</p> <p>PRICE: 144 @ \$6.07 (R) ASI Supplier Company Not Rated SILVER</p>	<p>Full Color Dye Sublim...</p> <p>PRICE: 144 @ \$4.88 (R) ASI Supplier Company Not Rated SILVER</p>

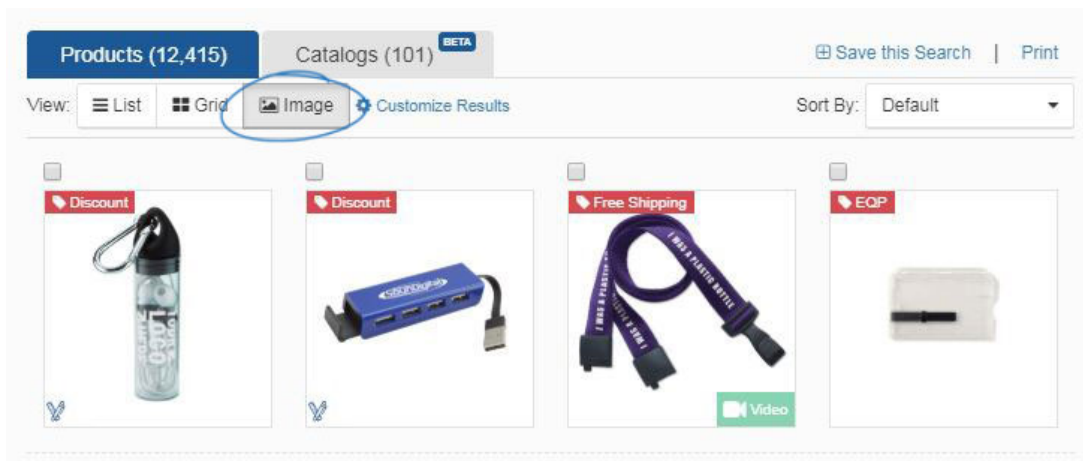

<input type="checkbox"/> 	<input type="checkbox"/> 
---	---

Clicking on the thumbnail will open the inline quick view.

Using the Image View

The Image view displays the thumbnail image for each product, as well as the supplier special, virtual sample enabled icon, and video flag if applicable.

Hovering on an image will display the product name, list price, net cost, supplier name, ASI Number, rating, and contact link. Additionally, the [Compare](#), [Order](#) and [Save](#) buttons will be shown.

Customize How Product Results Display

Use the Customize Results link to make your selections.

The Customize your search window will open.

Choose which view to make the default for your searches: List, Grid, or Image. You can also use the Sort Order dropdown to select a default sort by.

The thumbnail size option is only available for the List view, but you are able to select small, medium, or large.

Use the slider to select whether you would like the Detail view to open in a new tab.

The Show details option enables you to select individual checkboxes for the information you would like to include on your search results. There are also three additional options:

- **End Buyer Safe:** This link will display only the product name, list price, and coded product number.
- **Select All:** This link will mark every checkbox so that all of the information for those fields is displayed.
- **Restore Defaults:** This button will return the selected details to the standard ESP selections.

When you are finished customizing your options, click on the Save button.

Using the Quick Views

Two additional features that are provided for you are the large image and inline quick views.

The large image quick view will display when you hover on the thumbnail image. It will

display a larger thumbnail, supplier information, check inventory link (if applicable), and pricing information, as well as the [Compare](#), [Order](#) and [Save](#) buttons. Clicking on the Quick Info will open the inline quick view.

The inline quick view will display when you click on the thumbnail image. A summary of basic product and supplier information will be displayed, as well as the [Compare](#), [Order](#) and [Save](#) buttons. Use the Full Details button to open the [Detail View](#).

Using the Detail View

The Detail View provides you with all the information about that product and supplier.

Clicking on the product name in the List or Grid view will open the Detail View in a new tab.

Product Information

At the top of the product detail page, the product name, product number, date the product was last updated is displayed, and coded product number will be displayed.

Why do I see a notification at the top of the page?

If a red product expiration warning appears at the top of the page, it means that this item will no longer be available after the amount of time displayed in

the notification. In addition to alerting you that the product will expire, the notification (when provided by the supplier) will also contain a link to the most similar product available from the same supplier.

This product is expiring today. Consider using this [product](#) in the future.

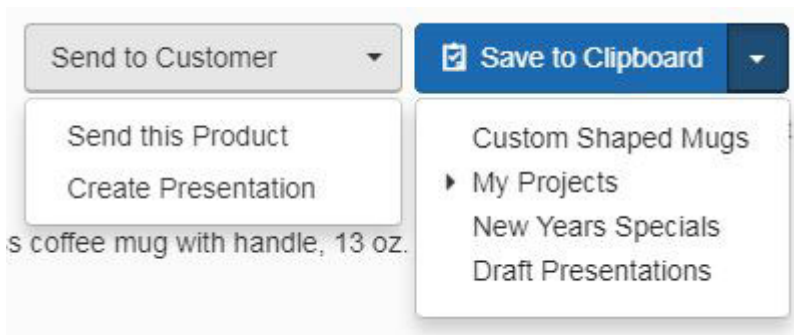

There are also two dropdown menus for sending and saving the product.

The Send to Customer dropdown enables you to:

- Send this Product: Email a client safe version of the product detail page.
- Create Presentation: Use [ESP Presentations](#) to design a presentation.

Clicking on the Save to Clipboard button will add the item to your clipboard. Clicking on the arrow next to this button will enable you to move the product into a project folder. The main difference between saving to the clipboard and saving to a project folder is that the clipboard will hold items up to 90 days, whereas projects will store items without term limits.

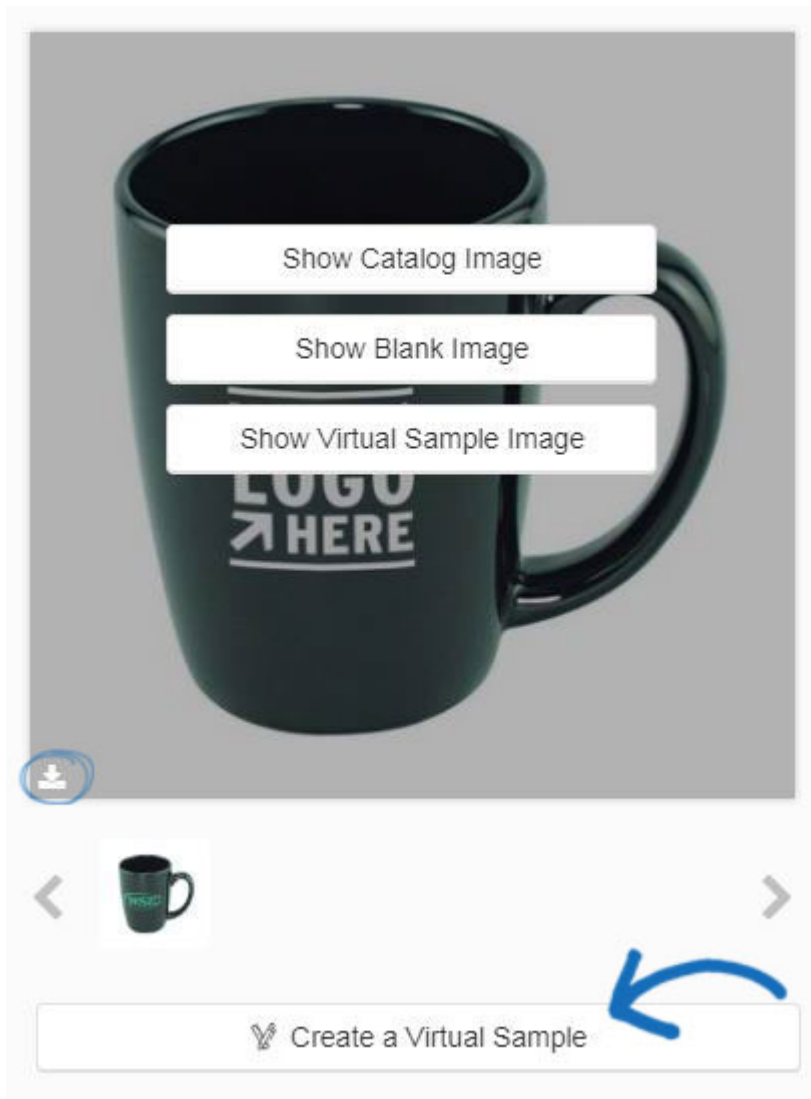

The product image is located at the top left of the details page. Hovering on the product image will display the options for image viewing:

- Show Catalog Image: Will display the default image provided by the supplier.
- Show Blank Image: View the image without any imprinting. This option will only be available if the supplier has provided an image of the product without artwork.
- Show Virtual Sample Image: View a virtual rendering of a client's logo on the product. This option will be available if the product is virtual sample enabled.

Also, if the supplier has provided a video for this product, click on the Video link. A pop-up window will open and begin playing the video.

Use the download icon to save the product image to your computer. You can also click on the Create a Virtual Sample button to apply a logo for enabled images.

If the product contains Prop 65 warnings, they will be displayed directly below the image, as well as in the Safety Warnings section.

To the right of the product image is the basic product details. The options displayed are based on the applicable product information. These fields included in this section are:

- Summary: A brief description of the product.
- Product number: The supplier provided item number.
- Confirmed checkmark: If the supplier has confirmed the product information, the checkmark icon will be displayed.
- Live data feed arrows: If the supplier can provide live data information for this product.
- Coded product number: Coded product numbers are specialized codes which are unique to each company's ASI number.
- Production time: The standard time to produce the product.
- Price range: The price range depicts the pricing information for all quantities.
- Currency selector: If the supplier has provided pricing for the item in US (USD) and Canadian (CAD) dollars, you will be able to use the dropdown to select the currency

you would like to view.

- Preferred status and pricing information: If the supplier has been designated a preferred supplier and your company has special pricing with that supplier, it will be displayed in this section.
- Rush service: If the supplier provides rush service, the indicator will be displayed.

Supplier Information

The basic supplier information, including contact information, is also in this section. Click on the Contact Supplier link to email the supplier or click on the supplier's website to open their site in a new tab. Use the Request dropdown to request a quote, sample, or catalog.
