Virtual Samples in ESP Web

Jennifer S - 2018-12-14 - in ESP Web

You can upload a logo to display on all virtual sample enabled products.

Virtual samples are an effective way to showcase the end buyer's logo on a product without having to order a physical sample. Using Virtual Samples when presenting products to your customer is a helpful tool to help them visualize the final product.

Ready to get started?

ASI is here to help you! The first step is to select which version of Virtual Samples you are using:
