

ESP Quick Tip #71: Set Default Thumbnail Size for Search Results

2024-04-18 - Jennifer M - ESP Quick Tips

After completing a product search in ESP Web, click on the Customize Results link above the search results.

In the Customize your Search window, you can choose the size of the thumbnail for future searches in ESP. You can select small, medium, or large. After you have made your selection, click on the Save button.

The screenshot displays the ESP Web interface. At the top, there is a navigation bar with links for 'Projects', 'Presentations', 'New Suppliers', 'Supplier Catalogs', 'Specials', and 'Idea Center'. Below this is a search bar with 'Products', 'Price', and 'Quantity' filters, a 'Search' button, and an 'Advanced S' link. The search results toolbar is identical to the one in the previous image, with 'Customize Results' circled in blue. Below the toolbar, three product listings are shown:
