Four additional fields will be included in the guided navigation following a product search:

- Preferred Vendors
- Supplier Rating
- Line Name
- Imprint Method

[Return to Top](#)

New Template Available

The Summit template is now available, featuring homepage category tiles!

[Return to Top](#)

Updated Privacy Policy

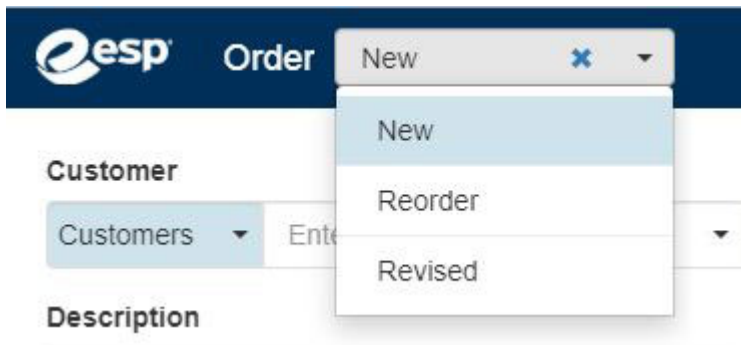

ASI has updated the standard [privacy policy and terms of service](#) information for ESP Websites. A privacy policy is an agreement with you and your Internet site visitors that explains the information you gather, how you use the information and how you protect it. It also explains how the site uses cookies. A privacy policy is legally required for Internet sites.

Orders Flags

During the order creation process, users can select the type of order. On supplier facing and internal sales documents, there will be an indication of which flag has been selected. The available options are:

- New
- Reorder
- Revised

Administrators have the ability to control the availability of these flags in the Company Profile section of the ESP Admin.
