Enhancements to Search

Two enhancements have been made to the ESP Search:

- Products are now more specifically categorized, which will help you find just the right item faster than ever!
- The Quality Certification Alliance (QCA) no longer provides Quality Certifications for products. As a result, ASI will be removing the QCA Certified checkbox from the Advanced Search, as well as the option to narrow by QCA Certified in the Narrow Results section.

The screenshot shows the 'Edit User' form in the ESPadmin system. The form is titled 'Edit User' and is for a user named 'ASISupport'. The form is divided into several sections:

- User Roles:** A checkbox for 'Sales Rep' which is checked.
- Login Information:** Fields for Username (ASISupport), Password (masked with dots), Password Hint (password hint), and a checkbox for 'Check this box to permit account updates via the phone.' (unchecked). There is also a field for Phone Password (Phone Password).
- Security Question:** A dropdown menu for 'What is the name of your first school?'.

A large blue box with the word 'BEFORE' is overlaid on the bottom left of the form, indicating this is the previous design.
