## The Manage Products Tab

Jennifer M - 2024-05-20 - ESP Updates

In the Manage Products tab, all products that have previously been entered into the database will be listed here. Use this tab to add, edit, make active/inactive, or delete products. All active products will display on ESP and Distributor websites. When adding products, please review the [ESP Data Standards](#).

### Search, Filter, and Sort Products

#### Search

Enter the product number, product name or keyword in the search box at the top left of your screen and click the magnifying button. Use quotes in the search field to locate the exact product. You can also search for multiple products by separating them using a comma and a space.

You have 662 Products in your Search

Search within

Q

Category ▼

GOLF/POLO SHIRTS  
(144)

PERFORMANCE  
APPAREL (123)

T-SHIRTS (68)

SHIRTS (40)

JACKETS (31)

⊕ See All

After searching, you will be able to use the filters to narrow your results further using the available options.

### Filter

Filter your products by the criteria listed in the left hand column of the page: category, size, imprint methods, colors and more.

**You have 662 Products in your Search**

Search within

**Sort by ▼**

**Category ▼**

- GOLF/POLO SHIRTS (144)
- PERFORMANCE APPAREL (123)
- T-SHIRTS (68)
- SHIRTS (40)
- JACKETS (31)
- [+ See All](#)

The number in parenthesis is the amount of products which are categorized within the option.

Click on the See All link to view all values within each criterion.

## Sort By

Click on the Sort by button and choose to sort your products by either the Last Updated Date, Product Name, Product Number, or Catalog so that they display in the order you prefer.

⋮

The Copy Product window will open and display the Product Name of the original item. Enter a product name for the new product and then click on the Save button.

## Copy Product

×

C-Handle ceramic mug

**Product Name ( Required )**

The newly created product will automatically open on the Basic Details tab. Edit the product data accordingly. Copied products will be inactive by default, clicking on the Make Active button will add the item to ESP and Distributor Websites.

The copied product will become its own product listing in the Manage Product tab.

## Delete a Product

Locate the item and then click on the Delete button.

The screenshot shows a product listing for a 'C-Handle ceramic mug'. The status is 'Product is Active'. The 'Delete' button is circled in blue, indicating it should be clicked to delete the product.

A confirmation window will appear with the message that deleting the product will permanently remove it from ESP and confirming that this is the correct action. Click on the "Yes, Delete this Product" button to complete the deletion.

## Make Active/Inactive

- **Make Active**

If a product is Inactive, it is still available in ESP Updates, but it is not available on ESP and Distributor Websites. The button on the product listing will show as "Make Active". The arrow enables you to select to make the product active now or set it to be active at a later date.

The screenshot shows a product listing for a 'C-Handle ceramic mug'. The status is 'Product is Inactive'. The 'Make Active' button is circled in blue, indicating it should be clicked to make the product active.

- **Make Inactive**

If a product is Active, it is listed on ESP and Distributor Websites. The button on the product listing will show as "Make Inactive" and clicking it will make the item inactive.

The screenshot shows a product listing for a 'C-Handle ceramic mug'. The status is 'Product is Active'. The 'Make Inactive' button is circled in blue, indicating it should be clicked to make the product inactive.

## Add a New Product

In the Manage Products tab, you can add a new product by clicking on the Add a New Product button.

The screenshot shows the 'Manage Products' tab with three buttons: 'Back to Websites', 'Search & Copy', and '+ Add a New Product'. The '+ Add a New Product' button is highlighted with a blue arrow, indicating it should be clicked to add a new product.

A window will open prompting you to enter a Product Name, Product Description and Type

of Product. Type the Product Name and Product Description in the available boxes. Use the “What type of product are you entering” dropdown to select a product type.

Once you are finished entering information, click on the Apply button.
