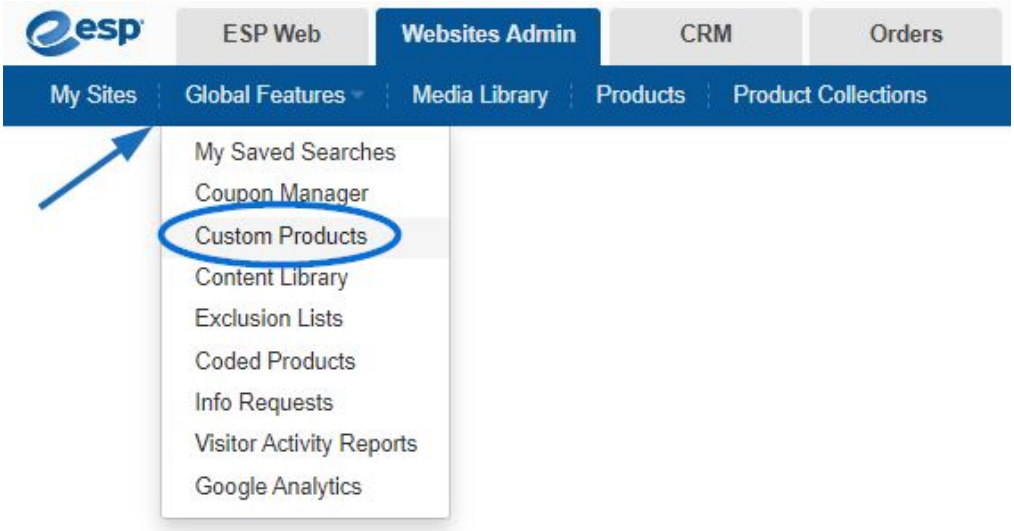
ESP Quick Tip #41: Create Custom Product from Clipboard

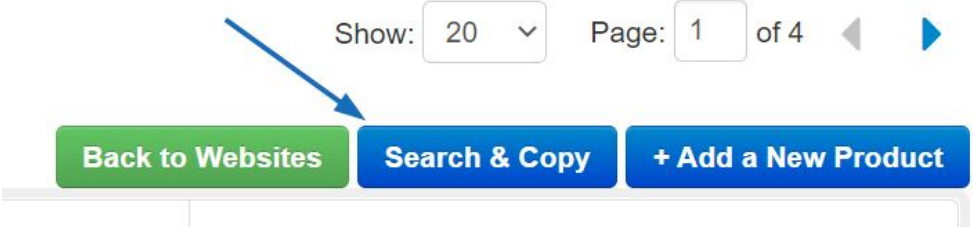
2022-07-22 - Jennifer M - ESP Quick Tips

If you have previously saved an item to your Clipboard, you can use it create a custom product. To do this, log into ESP and click into the Websites Admin tab. Then, take the following steps:

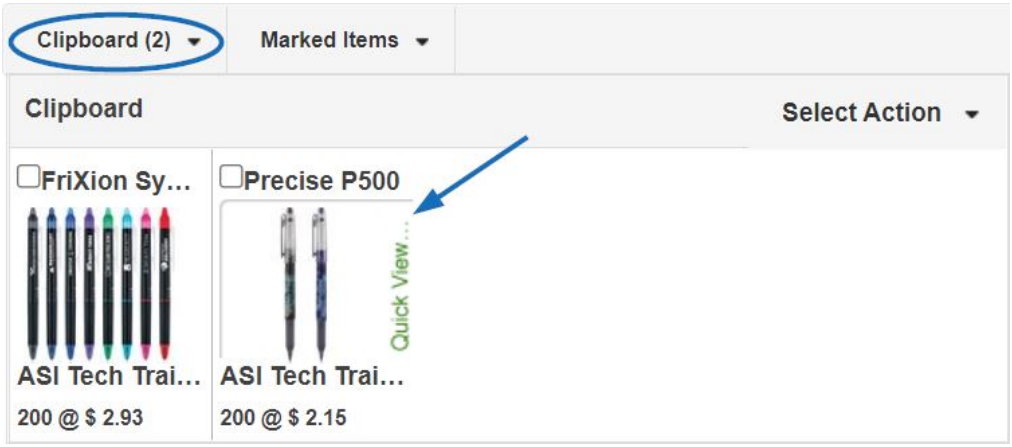
1. Click on the Global Features option from the main toolbar and select "Custom Products" from the menu.



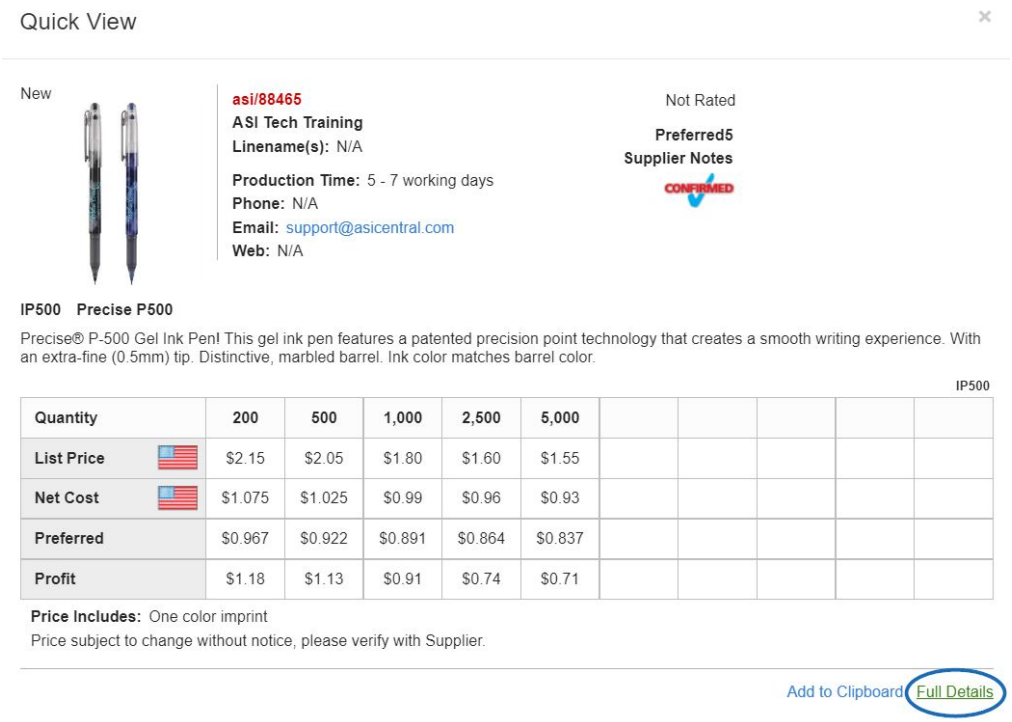
2. Then, click on Search and Copy button.



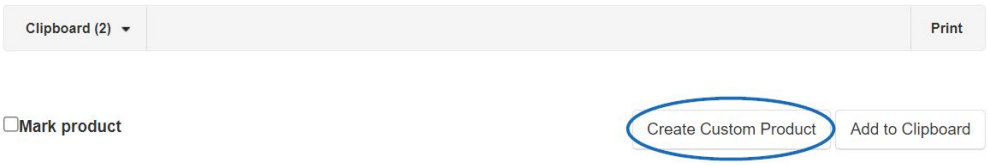
3. Open the Clipboard, hover on the item you would like to use to create a custom product and click on it.



4. When the quick view displays, click on the Full Details link at the bottom right corner.



5. From the Detail view, click on Create Custom Product.



For more information on creating custom products, please review the Custom Product webinar.
