Recommended COVID-19 Products and Content

As COVID-19 continues to be prevalent throughout the world, ASI is providing quick access and information for those looking to promote using personal protective equipment (PPE) by adding informative content in the Idea Center and helping suppliers properly categorize new PPE products. Within the Idea Center, there is now a section devoted to COVID-19 as well as over 10,000 PPE products from more than 700 ASI Suppliers in ESP.

Automatic Tasks Generated for Orders Grouped by Vendor

Company admins can establish automatic tasks which are to-do items that are created when an action is taken by a user in ESP. These tasks now have the added ability to be grouped by the vendor! This means that if an admin creates an automatic task for their users when they create a sales order, the admin can select to have that task grouped by the supplier or decorator.
