

ESP Quick Tip #71: Set Default Thumbnail Size for Search Results

2024-04-18 - Jennifer M - ESP Quick Tips

After completing a product search in ESP Web, click on the Customize Results link above the search results.

In the Customize your Search window, you can choose the size of the thumbnail for future searches in ESP. You can select small, medium, or large. After you have made your selection, click on the Save button.

The screenshot shows the ESP Web search results page with the 'Customize Results' window open. The window has a navigation bar with 'Projects', 'Presentations', 'New Suppliers', 'Supplier Catalogs', 'Specials', and 'Idea Center'. Below the navigation bar are input fields for 'Products', 'Price', and 'Quantity', a 'Search' button, and an 'Advanced S' link. The 'View:' section shows 'List', 'Grid', 'Image', and 'Customize Results' (selected). The 'Sort By:' dropdown is set to 'Recently Updated'. The search results are displayed in a list view with three items:
