

Navigating the Email Marketing Dashboard

Jennifer M - 2023-08-15 - Getting Started

The top options on the Dashboard enable you to create a list, a campaign or view a quick start video.

Dashboard

The dashboard features a central navigation area with three main options:

- Let's get started!**: Start here! Create an email campaign. [+ Create New Campaign](#)
- Create a List**: [Get Started](#)
- Quick start video**: [Get Started](#)

Campaign Stats

Statistics from sent campaigns will be displayed. Use the dropdown to select the timeframe (up to 180 days) for which you would like to view statistics.

Campaign Stats

Filter By

Campaigns statistics will include information about the emails within a campaign by:

- Sent
- Delivered
- Opens
- Clicks
- Unique Clicks
- Bounced

In the Campaigns section below, a snapshot of each campaign will be displayed with statistics. Use the Export Report button to get a Summary Report or a Detail Report. A Summary Report contains overview information, including the sent information from the snapshot, but also the campaign name, status, scheduled date, and subject line. A Detail Report contains more information about the campaign.

Emails Remaining

Emails Remaining refers to the number of individual emails you are able to send within a campaign. In the example below, there are 99 emails remaining. This means that the next email marketing campaign for this account may be sent to up to 99 different email addresses.

If you want to a campaign to more emails that the number shown, use the Buy Emails Here button to purchase more.

Note: Emails refers to individual email addresses, not people. This means that if a customer has two email addresses, it will be calculated as two emails.

Export All Reports

This link will generate an email containing all the data related to your email marketing campaigns.
