

ESP Quick Tip #73: Create Select-A-Search with Products from a Single Supplier

2024-06-19 - Jennifer M - ESP Quick Tips

When creating a Select-A-Search for use on an ESP Websites and/or Company Store, you may want to feature products from a specific supplier. To do this, log into ESP Web, click on the Websites Admin tab, and then click on Products from the main toolbar. From the product search, take the following steps:

1. Enter all or part of the Supplier's ASI number in the search box and click on Go.

Quick Search

 1234 Price From \$ Price To \$ USA Products Search within

2. In the Narrow Results section, click on the Supplier's name from the Supplier section.

Narrow Results

▶ **Category**

▶ **Price**

▶ **Market**

▼ **Supplier**

ASI Corporate (asi/123456)	(4)
ASI Supplier 1 (asi/12345)	(1)
ASI Supplier 2 (asi/12346)	(43)
ASI Supplier 3 (asi/12347)	(1)

▶ **Preferred Rank**

▶ **Supplier Rating**

3. Above the Narrow Results area in the Your Search Terms box, uncheck the initial search term to remove that criteria.
