

ESP Quick Tip #34: Add Shipping Account for Company in CRM

2022-04-19 - Jennifer M - ESP Quick Tips

To add a shipping account which to be used as a default during order creation, you can do so in CRM! After logging into ESP Web and clicking on the CRM tab, locate the company to which you would like to add the shipping account. Then, take the following steps:

1. Click on the Company name to open the record, then click on the Pencil icon in the upper right corner.

CRM / Companies / ABC Promo Company

2. Click the Billing Information link.
